

# One Powerfully Small Valve

## CMP19/A

KISS™ One Way BK Expulsion Valve

- 1mm Build Height
- 2cm Diameter
- Weighs < 1 gram
- Ultra Quiet
- Integrated filter

This remarkable valve is powerful, lightweight, and low profile. This valve is effective in securing a BK suction socket. Fabrication is simple: Drill a hole, sand up the edges, and glue in the valve. And at a great price, the results are simply powerfull.
